

Jacques Vallee Book

jacques vallee book: Wonders in the Sky Jacques Vallee, Chris Aubeck, 2010-10-28 One of the most ambitious works of paranormal investigation of our time, here is an unprecedented compendium of pre-twentieth-century UFO accounts, written with rigor and color by two of today's leading investigators of unexplained phenomena. In the past century, individuals, newspapers, and military agencies have recorded thousands of UFO incidents, giving rise to much speculation about flying saucers, visitors from other planets, and alien abductions. Yet the extraterrestrial phenomenon did not begin in the present era. Far from it. The authors of *Wonders in the Sky* reveal a thread of vividly rendered-and sometimes strikingly similar- reports of mysterious aerial phenomena from antiquity through the modern age. These accounts often share definite physical features- such as the heat felt and described by witnesses-that have not changed much over the centuries. Indeed, such similarities between ancient and modern sightings are the rule rather than the exception. In *Wonders in the Sky*, respected researchers Jacques Vallee and Chris Aubeck examine more than 500 selected reports of sightings from biblical-age antiquity through the year 1879-the point at which the Industrial Revolution deeply changed the nature of human society, and the skies began to open to airplanes, dirigibles, rockets, and other opportunities for misinterpretation represented by military prototypes. Using vivid and engaging case studies, and more than seventy-five illustrations, they reveal that unidentified flying objects have had a major impact not only on popular culture but on our history, on our religion, and on the models of the world humanity has formed from deepest antiquity. Sure to become a classic among UFO enthusiasts and other followers of unexplained phenomena, *Wonders in the Sky* is the most ambitious, broad-reaching, and intelligent analysis ever written on premodern aerial mysteries.

jacques vallee book: *Passport to Magonia* Jacques Vallee, 1993 Over two decades ago, eminent scientist Vallee wrote a provocative book about alleged UFO landings, folklore, and certain unexplained phenomena. That long-out-of-print book-which discussed the most interesting reports of more than 1,000 apparently reliable witnessess-has become an underground classic and is now being reissued.

jacques vallee book: *Forbidden Science* Jacques Vallee, 1992 Known principally as an investigator of the UFO phenomenon and a science fiction novelist, the French-born Vallee (now a resident of the U.S.) has also worked as a computer scientist in both academia and industry. UFOlogists will not find the answers to all of their questions here, for although Vallee believes that UFOs exist, he has no idea just what they are. Therein lies the excellence of his dazzling diary: it offers a glimpse into the mind of a scientist who seems to challenge every preconception and established piety. To his academic training as a mathematician and scientist, which stressed rational approaches to problems, Vallee has brought an interest in the mystical, the psychical, and the paranormal. He has been a Rosicrucian and has studied the works of ancient scientists like Paracelsus. His diary is replete with profoundly insightful, often devastating observations about the strengths and weaknesses of France and the U.S., their academics and their researchers in industry.

jacques vallee book: *Forbidden Science* Jacques Vallee, 1996-01 Known principally as an investigator of the UFO phenomenon and a science fiction novelist, the French-born Vallee (now a resident of the U.S.) has also worked as a computer scientist in both academia and industry. UFOlogists will not find the answers to all of their questions here, for although Vallee believes that UFOs exist, he has no idea just what they are. Therein lies the excellence of his dazzling diary: it offers a glimpse into the mind of a scientist who seems to challenge every preconception and established piety. To his academic training as a mathematician and scientist, which stressed rational approaches to problems, Vallee has brought an interest in the mystical, the psychical, and the paranormal. He has been a Rosicrucian and has studied the works of ancient scientists like

Paracelsus. His diary is replete with profoundly insightful, often devastating observations about the strengths and weaknesses of France and the U.S., their academics and their researchers in industry.

jacques vallee book: Revelations Jacques Vallee, 1997-09-01

jacques vallee book: Dimensions Jacques Vallee, 2013-08 In DIMENSIONS, the first volume of a trilogy, Dr. Jacques Vallee reexamines the historical record that led to the modern UFO phenomenon and to the belief in alien contact. He then tackles the enigma of abduction reports, which come from various times and various countries, as well as the psychic and spiritual components of the contact experience. In the last portion of the book, he notes the factors that inhibit research into the phenomenon--the triple coverup and political motivations--and concludes that the extraterrestrial theory is simply not strange enough to explain the facts.

jacques vallee book: Messengers of Deception Jacques Vallee, 2008 Documents the growing effect of UFO contact claims on our lives and of the belief systems prevalent in our society. It explores the hidden realities of the cults, the contactees, the murky political intrigues and the motivations of the investigators.

jacques vallee book: Passport to Magonia Jacques Vallee, 2014-11-23 Jacques Vallee, a mathematician and astronomer, discusses and explores many of the most interesting reports of UFO sightings from 1868-1968.

jacques vallee book: Confrontations Jacques Vallee, 2015-06-01

ASCIENTIFICDETECTIVESTORY In Confrontations, the second volume of his Alien Contact Trilogy, Dr. Jacques Vallee personally investigates forty astonishing UFO cases from around the world. He finds it shocking that professional scientists have never seriously examined this material. This book is about the hopes, experiences, and the frustrations of a scientist who has gone into the field to investigate a bizarre, seductive, and often terrifying phenomenon reported by many witnesses as a contact with an alien form of intelligence. Dr. Jacques Vallee was born in France, where he received a Bachelor of Science degree in mathematics from the Sorbonne and a Master of Science in astrophysics from the University of Lille. He began his professional life as an astronomer at the Paris Observatory in 1961. While on the staff of the French Space Committee, he witnessed the destruction of the tracking tapes of unknown objects orbiting the earth, initiating a lifelong interest in the UFO phenomenon. Vallee arrived in the U.S. in 1962, worked in astronomy at the University of Texas at Austin, and wrote two highly respected scientific examinations arguing for the Extraterrestrial Hypothesis (ETH) of UFO origins. In 1967, he received a Ph.D. in computer science from Northwestern University, where he became a close associate of J. Allen Hynek, then scientific consultant for the U.S. Air Force on Project Blue Book. Eventually concluding that the ETH was too narrow to encompass the burgeoning UFO data, he conducted his own extensive global research, resulting in the Alien Contact Trilogy. Dr. Vallee is presently a venture capitalist living in San Francisco. His website is www.jacquesvallee.com.

jacques vallee book: UFO's in Space Jacques Vallee, 1987-04

jacques vallee book: TRINITY Jacques Vallée, Paola Leopizzi Harris, 2021-05-07 Hard evidence has existed since 1945 for the actual recovery of unidentified flying craft in the United States, according to a new research book, TRINITY: The Best-Kept Secret written by two seasoned analysts of the global patterns behind the UFO phenomenon. Italian investigative journalist Paola Leopizzi Harris and French-born information scientist Dr. Jacques F. Vallée have teamed up to uncover the details of a New Mexico crash in 1945, fully two years before the well-known incident at Roswell and the famous sighting by pilot Kenneth Arnold in 1947. Over several site investigation surveys Harris and Vallée reconstructed the historic observations by three witnesses, two of whom are still living, who described to them the circumstances of the crash, with details of the recovery of a nearly-intact flying vehicle and its occupants by an Army detachment. Combining their long experience in field research around the world, the authors have documented the step-by-step efforts by the military to remove the object, an avocado-shaped craft weighting several tons, from the property where it crash-landed during a storm. Surprisingly, the literature of the field only includes a few passing mentions about the case, and only one (foreign) TV documentary has mentioned it, but the

correlation between the crash of the extraordinary object and the explosion of the first atom bomb at White Sands, less than 20 miles away, has been missed. Harris and Vallée suggest that the correlation is significant for physical, geographic and biological reasons, quite apart from the obvious strategic implications. The witnesses were able to observe not only the actual crash of the object on their property but every step of the military efforts to lift it and take it away. Fearing retaliation, they remained silent for some 60 years about what they had seen and done over those nine days at the site while the recovery was proceeding. When placed in the context of the history of chemical and physical analysis of retrieved UFO debris--an area where Harris and Vallée have long collaborated--the devices observed by the witnesses raise a number of very important scientific questions. The Honorable Paul Hellyer, former Minister of National Defence of Canada, has stated: Paola Harris and Jacques Vallée have spent much effort doing field research on location (...) It is now time that their discovery be revealed to the world.

jacques vallee book: *The Invisible College* Jacques Vallee, 2015-06-01 What is the nature of unidentified aerial phenomena? Forty years ago a small cadre of dedicated researchers began actively investigating cases, interviewing witnesses, and exchanging data through a small, informal network of international contacts. Today this low profile network, or invisible college, has grown into a larger, multi-nation volunteer research effort joined by many individuals. But the questions first raised 40 years ago remain current and unanswered. I believe that a powerful force has influenced the human race in the past and is again influencing it now. Does this force represent alien intervention, or does it originate entirely within human consciousness? This is the question that forms the basis of the work of the Invisible College of UFO researchers. - Jacques Vallee Dr. Jacques Vallee began his professional life as an astronomer at the Paris Observatory in 1961. While on the staff of the French Space Committee, he witnessed the destruction of the tracking tapes of unknown objects orbiting the earth, initiating a lifelong interest in the UFO phenomenon. Vallee arrived in the U.S. in 1962 and worked in astronomy at the University of Texas at Austin before receiving a Ph.D. in computer science from Northwestern University in 1967. There he became a close associate of J. Allen Hynek, then scientific consultant for the U.S. Air Force on Project Blue Book--the result was *The Invisible College*. Other works by Vallee include *Dimensions*, *Confrontations*, and *Revelations*. Dr. Vallee is presently a venture capitalist living in San Francisco.

jacques vallee book: *The Edge of Reality: a Progress Report on Unidentified Flying Objects* J. Hynek, Jacques Vallee, 1975-12-15 Two of our country's most eminent scientists, both of whom have studied the UFO phenomenon for decades, have collaborated on this report of what serious scientists now believe about it. And they show that an increasing number of scientists are taking the UFO subject seriously. From the outset, Hynek and Vallee make their position clear: UFOs represent an unknown but real phenomenon. The far-reaching implications take us to the very edge of what we consider the known and real in our physical environment. Perhaps, say the authors, UFOs signal the existence of a domain of nature as yet totally unexplored. In this mind-stretching book, the authors sample UFO reports--including those allegedly involving humanoids--and describe the patterns that have been perceived in the behavior of the phenomenon. They also establish a framework for the further study of the UFO phenomenon. Where might such study lead? What can be studied, and how? What is the real nature of the UFO phenomenon? Does it originate with the actions of other intelligences in the universe? Does the UFO phenomenon have a purely physical explanation, or is there a vaster, hidden realm that holds the solution? J. Allen Hynek is Professor of Astronomy at Northwestern University. For years, he was astronomical consultant to the U.S. Air Force. Over the years, as Dr. Hynek focused on the UFO reports that appeared unsolvable, he began to believe that there is something most unusual going on. Jacques Vallee is the author of several classic UFO books. After obtaining his doctorate in computer sciences from Northwestern University, he joined the Computer Laboratory at Stanford University.

jacques vallee book: *American Cosmic* D.W. Pasulka, 2019-01-23 More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. *American Cosmic* examines the mechanisms at

work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-year ethnographic study, D.W. Pasulka interviewed successful and influential scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like The X-Files, which can influence memory, and the believability lent to that media by the search for planets that might support life. *American Cosmic* explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority that offers believers answers about non-human intelligent life.

jacques vallee book: *Dimensions* Jacques Vallee, 1996

jacques vallee book: Forbidden Science - Volume Two Jacques VALLEE, 2009-06-16 Personal diary of a scientist exploring the frontiers of research

jacques vallee book: **Forbidden Science 4** Jacques Vallee, 2019-04-08 The Spring Hill Chronicles are a record of Jacques Vallee's private study into unexplained phenomena between 1990 and the end of the millennium, during which he was traveling around the globe pursuing his professional work as a high-technology investor.

jacques vallee book: **Fastwalker** Jacques Vallee, Tracy Tormé, 1996 A man named Vulcan is the Key to Operation Alintel in its final high-tension hours... Already, an Air Force pilot has died in a strange accident over Dreamland, a secret base in Nevada. The President of the United States has not yet been briefed. Scientists from all over the world are being assembled inside Pyramid Base... The Manipulator is General Bushnell, head of a secret organization which has been trying to capture a flying saucer since the early days of the UFO mystery. Suave but utterly ruthless, this cold warrior has every tool of high-tech wizardry at his fingertips and a crack team of skilled operatives under his control. The Investigator is Peter Keller, a dedicated journalist with a lot to prove, struggling to keep his integrity in the sensational atmosphere of tabloid media. A flawed but gutsy professional, he's ready to travel to the ends of the Earth to solve the mystery of UFO abductions. The Victim is Rachel Rand, a young woman caught between the nightmarish alien beings who stalked her on a lonely Long Island road and a bizarre cult of UFO believers who are convinced that the end of the world is imminent. Can she trust the man she loves to help her discover the truth about her tormentors? Now an unearthly craft has been secretly captured by the scientific team of General Bushnell. What it contains can indeed spell the end of human history as we know it. But are human beings ready for that knowledge? And who will control it?

jacques vallee book: UFOs and the National Security State Richard Dolan, 2002-06-01 "The documentation is spectacularly good, the best ever on the UFO subject. And the conclusion is overwhelmingly powerful." —Whitley Strieber, New York Times-bestselling author Richard M. Dolan is a gifted historian whose study of US Cold War strategy led him to the broader context of increased security measures and secrecy since World War II. One aspect of such government policies that has continued to hold the public's imagination for over half a century is the question of unidentified flying objects. *UFOs and the National Security State* is the first volume of a two-part detailed chronological narrative of the national security dimensions of the UFO phenomenon from 1941 to the present. Working from hundreds of declassified records and other primary and secondary sources, Dolan centers his investigation on the American military and intelligence communities, demonstrating that they take UFOs seriously indeed. Included in this volume are the activities of more than fifty military bases relating to UFOs, innumerable violations of sensitive airspace by unknown craft and analyses of the Roswell controversy, the CIA-sponsored Robertson Panel, and the Condon Committee Report. Dolan highlights the development of civilian anti-secrecy movements, which flourished in the 1950s and 1960s until the adoption of an official government policy and subsequent "closing of the door" during the Nixon administration. "A thorough and monumental undertaking." —Dr. Edgar Mitchell, Apollo 14 astronaut "If there ever had been a 'must-read, must-have' book on the subject, *UFOs and the National Security State* is it. I promise you that once

you've read it, you'll never view the subject of UFOs or the American military/intelligence establishment in the same light again." —Don Ecker, senior editor, UFO Magazine

jacques vallee book: Intimate Alien David J. Halperin, 2020-03-24 A voyage of exploration to the outer reaches of our inner lives. UFOs are a myth, says David J. Halperin—but myths are real. The power and fascination of the UFO has nothing to do with space travel or life on other planets. It's about us, our longings and terrors, and especially the greatest terror of all: the end of our existence. This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals, as a culture, and as a species. In the 1960s, Halperin was a teenage UFOlogist, convinced that flying saucers were real and that it was his life's mission to solve their mystery. He would become a professor of religious studies, with traditions of heavenly journeys his specialty. With *Intimate Alien*, he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions, believers and deniers alike. From the prehistoric Balkans to the deserts of New Mexico, from the biblical visions of Ezekiel to modern abduction encounters, *Intimate Alien* traces the hidden story of the UFO. It's a human story from beginning to end, no less mysterious and fantastic for its earthliness. A collective cultural dream, UFOs transport us to the outer limits of that most alien yet intimate frontier, our own inner space.

jacques vallee book: UFOs John B. Alexander, Ph.D., 2012-02-28 A never-before-heard firsthand account of a government insider's experience on the cutting edge of UFO exploration; includes a new afterword Forget everything you think you know about UFOs - this insider's account exposes the reality... Packed with top grade information, insightful analysis and fascinating anecdotes, Alexander's interesting and controversial book sets the gold standard for titles on this subject. —Nick Pope, author of *Open Skies, Closed Minds* Changes the playing field for both true believers and skeptics alike. Alexander strongly warns, be careful what you wish for when asking for presidential intervention. Success could set the field of ufology back decades. —George Noory, host of *Coast to Coast AM* While still on active duty in the U.S. Army during the 1980s, Colonel John B. Alexander, Ph.D. created an interagency group to explore the controversial topic of UFOs. All members held Top Secret clearance. What they discovered was not at all what was expected. *UFOs* covers the numerous cases they saw, and answers questions like: • What was really in Hanger 18? • Did a UFO land at Holloman Air Force Base? • What happened at Roswell? • What is Majestic 12? • What is the Aviaary? • What does the government know about UFOs? • What has happened with disclosure in other countries? • Has the U.S. reverse engineered a UFO? • Why don't presidents get access to UFO info? *UFOs* is at once a complete account of Alexander's findings, and a call to action. There are no conspiracy theories here—only hard facts—but they are merely the beginning. Foreword by Jacques F. Vallee Introduction by Burt Rutan Commentary by Tom Clancy

jacques vallee book: Forbidden Science 1 Jacques Vallee, 2017-05 The first volume of Jacques Vallee's journals details how UFOs, in the midst of a proliferation of sightings in the 1960s, became a forbidden science. Vallee reveals just how the scientific community was misled by the government, how the best data on UFOs was kept hidden, and how the public record was shamelessly manipulated.

jacques vallee book: Third Displacement John Hart, 2020-02-05 The question, "Are we alone in the cosmos?" has been answered. We are not alone. Geologist-paleontologist Pierre Teilhard de Chardin, SJ, stated, as early as the mid-1920s, that intelligent life likely exists elsewhere and distinguished scientists of today, including Harvard biologist, E. O. Wilson; Cambridge cosmologist, Stephen Hawking; astrophysicist and noted UAP researcher, Jacques Vallee; astronomer, Allen Hynek; and many others concur. The oral traditions of Native American elders teach that they have interacted periodically with Star People who are respected ancestors. Credible witness-participants today describe abductions by benevolent and malevolent Others. Discoveries by the Kepler, Hubble, and Gaia space telescopes, ground-based arrays of radio telescopes, and TESS (Transiting Exoplanet Survey Satellite) suggest that in the Milky Way, twenty-five billion planets are in the life-friendly Goldilocks Zone. In *Third Displacement: Cosmobiology, Cosmolocality, Cosmosocioecology*, author

John Hart links experiences with research in science-based and Spirit-focused books and articles—including narratives about close encounters with Visitors from elsewhere in space (ETI) or Others from other cosmos dimensions (IDI)—in examination of the claim that Intelligent ExoEarth life exists, that Otherkind has visited humankind.

jacques vallee book: Handbook of UFO Religions , 2021-03-08 The Handbook of UFO Religions, edited by scholar of new religions Benjamin E. Zeller, offers the most expansive and detailed study of the persistent, popular, and global phenomenon of religious engagements with ideas about extraterrestrial life.

jacques vallee book: UFO Chronicles of the Soviet Union Jacques Vallee, 1992

jacques vallee book: The Hynek UFO Report J. Allen Hynek, 2020 Originally released in 1977, this new edition by the world's foremost authority on UFOs distills 12,000 'sightings' and 140,000 pages of Project Blue Book 'evidence' into a coherent explanation--Back cover.

jacques vallee book: The UFO Phenomenon John Michael Greer, 2009 Written by an acclaimed occult scholar, this book is a through are credible exploration of the UFO phenomenon - from Kenneth Arnold's 1947 sighting of the first 'flying saucers' to present-day sightings.

jacques vallee book: Sekret Machines: Gods Tom DeLonge, Peter Levenda, 2017-03-07 An exceptional examination from award-winning author and producer Tom DeLonge with renowned research author Peter Levenda, Sekret Machines: GODS will take you on an eye-opening journey that transcends speculation and is based on unprecedented access to officials at the highest levels of government, military and industrial agencies who have provided insights and assistance never before experienced by any researchers in this controversial field. GODS takes us beyond speculation to certain knowledge of what exactly lies at the heart of the most important Phenomenon ever to confront human understanding. This first volume introduces the reader to some of the critical issues that are foundational to an intelligent and enlightened grasp of the revelations that will follow in the next two volumes. There is another Force in the universe of our Reality, another context for comprehending what has been going on for millennia and especially in the last seventy years. Sekret Machines is the result of input from scientists, engineers, intelligence officers, and military officials -- a group we call the Advisors -- and transcends the speculation of journalists, historians and others whose conclusions are often either misinformed or only tease around the edges of the Sekret Machines. The reader will not discover wild theories or unfounded claims, but instead will confront a solid -- if often unsettling -- reality, one that demands the collaboration of all of us in every field of human endeavor if we are to understand it and manage its effects. If nothing else, readers will come to the conclusion that the Phenomenon is not what they think it is. It is, in fact, much more serious and potentially much more threatening than they can imagine. Sekret Machines: GODS is volume one of the companion investigation series to the bestselling thriller Sekret Machines: Chasing Shadows by DeLonge and NYTimes bestselling author AJ Hartley. The whole is truly greater than the sum of its parts. Read together, the thriller series and the investigation series show what cannot be revealed with one approach alone.

jacques vallee book: A UFO Hunter's Guide Bret Lueder, 2012-08-01 Alien abductions. Repeated UFO sightings. Conspiracies and cover-ups. Whether you're a skeptic or a believer, UFOs are part of our culture. How to sort out fact from fiction? A UFO Hunter's Guide has the answers: the facts, figures, people, places, and events that make up the modern scope of UFO-ology. A UFO Hunter's Guide features:Competing theories about UFOsFamous cases and hot spots around the worldField tips from investigators and researchersAn extensive list of international UFO research societies. Lueder cites the contributions and findings of world-renowned researchers Zecharia Sitchin, William Bramley, Jordan Maxwell, Nancy Red Star, Stanton Friedman, Dr. Carl Sagan, Jacques Vallee, Raymond Fowler, and many others, along with a vast array of case sightings, alleged contacts, and abductions. Whether you're simply curious or a researcher with a serious interest in uncovering the truth about UFOs, A UFO Hunter's Guide is a valuable resource.

jacques vallee book: UFOs & Alien Contact Robert E. Bartholomew, George S. Howard, 1998 The most detailed and comprehensive examination yet of 100 years of UFO reports, sighting waves,

and abduction claims spanning two centuries, UFO and Alien Contact utilizes rare press reports and incorporates copious notes and documentation of stories to provide a gripping, humorous, and at times horrifying account.

jacques vallee book: *No Return* David Booher, 2017-07-24 This is the true story of a man named Gerry Irwin. Was he abducted by aliens, in what would amount to the first known case of this phenomenon on American soil? Or was he a pawn in a covert intelligence operation?

jacques vallee book: *Stratagem* Jacques Vallee, 2007 When Mark Harris, a financial executive from Silicon Valley, goes on a fishing trip to Brazil with his friend Robert, he is not looking for UFOs. Confronted with huge objects the size of a city that lift out of the waters of the Amazon, the two men are infuriated by the official denials that greet their story. They soon become the target of a determined commando, ready to kill to get the evidence they hold--Jacket.

jacques vallee book: *The Invisible College* Jacques Vallee, 1975 What is the nature of unidentified aerial phenomena? Forty years ago a small cadre of dedicated researchers began actively investigating cases, interviewing witnesses, and exchanging data through a small, informal network of international contacts. Today this low-profile network, or invisible college, has grown into a larger, multi-nation volunteer research effort joined by many individuals. But the questions first raised 40 years ago remain current-and unanswered. I believe that a powerful force has influenced the human race in the past and is again influencing it now. Does this force represent alien intervention, or does it originate entirely within human consciousness? This is the question that forms the basis of the work of the Invisible College of UFO researchers. -- Jacques Vallee.

jacques vallee book: *Authors of the Impossible* Jeffrey J. Kripal, 2011-09-16 "Outstanding and almost certainly controversial. . . . [Kripal] has promise to revitalize and extend the reach of religious studies." —Choice Most scholars dismiss research into the paranormal as pseudoscience, a frivolous pursuit for the paranoid or gullible. Even historians of religion, whose work naturally attends to events beyond the realm of empirical science, have shown scant interest in the subject. But the history of psychical phenomena, Jeffrey J. Kripal contends, is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought we can see its potential centrality to the critical study of religion. Kripal grounds his study in the work of four major figures in the history of paranormal research: psychical researcher Frederic Myers; writer and humorist Charles Fort; astronomer, computer scientist, and ufologist Jacques Vallee; and philosopher and sociologist Bertrand Méheust. Through incisive analyses of these thinkers, Kripal ushers the reader into a beguiling world somewhere between fact, fiction, and fraud. The cultural history of telepathy, teleportation, and UFOs; a ghostly love story; the occult dimensions of science fiction; cold war psychic espionage; galactic colonialism; and the intimate relationship between consciousness and culture all come together in *Authors of the Impossible*, a dazzling and profound look at how the paranormal bridges the sacred and the scientific. "An excellent book. . . . engaging, witty, and thoughtful." -- Christopher Partridge, Lancaster University "[Kripal] demands nothing short of a paradigm shift in order to make sense of the odd, the anomalous, and the inexplicable." —Catherine L. Albanese, University of California, Santa Barbara "Quietly earth-shattering." —Victoria Nelson, author of *The Secret Life of Puppets*

jacques vallee book: *Fatima Revisited*, 2008 Volume III of the Fatima trilogy--Back cover.

jacques vallee book: *Forbidden Science 3* Jacques Vallee, 2017-05 In this third volume of journals, Jacques Vallee witnessed with concern the increasing manipulation and disinformation that discouraged rational research into ufology. But he persisted in his first-hand UFO investigations in the US, Europe, and South America.

jacques vallee book: *Challenge to Science* Jacques Vallée (Astrophysicist, Computer scientist, France, United States), Janine VALLÉE, 1966

jacques vallee book: *Angels and Aliens* Keith Thompson, 1993 It was Carl Jung who first spoke of the UFO phenomenon as a modern myth in the making, and Joseph Campbell who insisted that the first function of myths is opening mind and heart to the utter wonder of all being. Now Keith Thompson makes it possible for us to share that sense of wonder as he explores the UFO against the

timeless backdrop of visionary experience: angelic vision, near-death experiences, shamanic journeys, religious miracles, and folkloric encounters with fairies. In a brilliant stroke, Keith Thompson takes a subject usually confined to sensationalistic expose and reveals its surprising literary richness, intellectual energy, and symbolic depths. By offering a new, open-ended perspective which avoids the dogmatism of true believers and debunkers alike, *Angels and Aliens* invites readers to enter a fascinating world with profound implications for our understanding of the human spirit.

jacques vallee book: Forbidden Science - Volume Four Jacques Vallee, 2019-01-27 This is the fourth volume in the Forbidden Science series, consisting of the diaries of a scientist who is passionate about research into frontier topics including UFOs and paranormal experiences.

jacques vallee book: They Knew Too Much about Flying Saucers Gray Barker, 1996

Jacques Vallee Book Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Jacques Vallee Book free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Jacques Vallee Book free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Jacques Vallee Book free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading Jacques Vallee Book. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Jacques Vallee Book any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Jacques Vallee Book Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Jacques Vallee Book is one of the best book in our library for free trial. We provide copy of Jacques Vallee Book in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Jacques Vallee Book. Where to download Jacques Vallee Book online for free? Are you looking for Jacques Vallee Book PDF? This is definitely going to save you time and cash in something

you should think about.
