Pekka Hämäläinen explores the Lakotas' roots as marginal hunter-gatherers and reveals how they reinvented themselves twice: first as a river people who dominated the Missouri Valley, America's great commercial artery, and then--in what was America's first sweeping westward expansion--as a horse people who ruled supreme on the vast high plains. The Lakotas are imprinted in American historical memory. Red Cloud, Crazy Horse, and Sitting Bull are iconic figures in the American imagination, but in this groundbreaking book they emerge as something different: the architects of Lakota America, an expansive and enduring Indigenous regime that commanded human fates in the North American interior for generations. Hämäläinen's deeply researched and engagingly written history places the Lakotas at the center of American history, and the results are revelatory.

native american jewelry history: *Early Art of the Southeastern Indians* Susan C. Power, 2004 *Early Art of the Southeastern Indians* is a visual journey through time, highlighting some of the most skillfully created art in native North America. The remarkable objects described and pictured here, many in full color, reveal the hands of master artists who developed lapidary and weaving traditions, established centers for production of shell and copper objects, and created the first ceramics in North America. Presenting artifacts originating in the Archaic through the Mississippian periods--from thousands of years ago through A.D. 1600--Susan C. Power introduces us to an

extraordinary assortment of ceremonial and functional objects, including pipes, vessels, figurines, and much more. Drawn from every corner of the Southeast—from Louisiana to the Ohio River valley, from Florida to Oklahoma—the pieces chronicle the emergence of new media and the mastery of new techniques as they offer clues to their creators' widening awareness of their physical and spiritual worlds. The most complex works, writes Power, were linked to male (and sometimes female) leaders. Wearing bold ensembles consisting of symbolic colors, sacred media, and richly complex designs, the leaders controlled large ceremonial centers that were noteworthy in regional art history, such as Etowah, Georgia; Spiro, Oklahoma; Cahokia, Illinois; and Moundville, Alabama. Many objects were used locally; others circulated to distant locales. Power comments on the widening of artists' subjects, starting with animals and insects, moving to humans, then culminating in supernatural combinations of both, and she discusses how a piece's artistic "language" could function as a visual shorthand in local style and expression, yet embody an iconography of regional proportions. The remarkable achievements of these southeastern artists delight the senses and engage the mind while giving a brief glimpse into the rich, symbolic world of feathered serpents and winged beings.

native american jewelry history: *Surviving Desires* Henrietta Lidchi, 2015 Author Henrietta Lidchi focuses on jewellery in the cultural economy of the Southwest, exploring jewellery making as a decorative art form in constant transition. Lidchi explores the jewellery as craft, material culture, commodity, and adornment. Considering the impact of tourism, she discusses fakes in the market and the artists' desires to codify traditional styles, explaining how that can affect stylistic development and value. *Surviving Desires* suggests the complexity and reinvention innate to Native American jewellery as a commercial craft--
