teaching strategies for early childhood: Visible Learning in Early Childhood Kateri Thunder, John Almarode, John Hattie, 2021-09-13 Make learning visible in the early years Early childhood is a uniquely sensitive time, when young learners are rapidly developing across multiple domains, including language and literacy, mathematics, and motor skills. Knowing which teaching strategies work best and when can have a significant impact on a child's development and future success. Visible Learning in Early Childhood investigates the critical years between ages 3 and 6 and, backed by evidence from the Visible Learning® research, explores seven core strategies for learning success: working together as evaluators, setting high expectations, measuring learning with explicit success criteria, establishing developmentally appropriate levels of learning, viewing mistakes as opportunities, continually seeking feedback, and balancing surface, deep, and transfer learning. The authors unpack the symbiotic relationship between these seven tenets through Authentic examples of diverse learners and settings Voices of master teachers from the US, UK, and Australia Multiple assessment and differentiation strategies Multidisciplinary approaches depicting mathematics, literacy, art and music, social-emotional learning, and more Using the Visible Learning research, teachers partner with children to encourage high expectations, developmentally appropriate practices, the right level of challenge, and a focus on explicit success criteria. Get started today and watch your young learners thrive!

teaching strategies for early childhood: Multicultural Teaching in the Early Childhood Classroom Mariana Souto-Manning, 2015-04-24 This unique book features an array of approaches, strategies, and tools for teaching multiculturally in the early years. The teachers and classrooms portrayed here provide young children with rich educational experiences that empower them to

understand themselves in relation to others. You will see how amazing teachers engage in culturally responsive teaching that fosters educational equity while also meeting state and national standards (such as the Common Core State Standards). This engaging book is sprinkled with questions for reflection and implementation that encourage educators to start planning ways of enhancing their own teaching, making their early childhood setting a more equitable learning space. Book Features: Multicultural education in action, including the everyday issues and tensions experienced by children and their families. Powerful vignettes from diverse Head Start, preschool, kindergarten, 1st- and 2nd-grade classrooms throughout the United States. Sections on "Getting Started" and "Considering Obstacles and Exploring Possibilities" in each chapter. A list of multicultural children's books and resources for further reading. Chapters: Multicultural Tools and Strategies for Teaching Young Children Multicultural Education as Transformative Education Interviews: Encouraging Children to Ask Questions Critical Inquiry: Supporting Children's Investigations Culture Circles with Multicultural Literature: Addressing Issues of Fairness Community Resources and Home Literacies: Developing Funds of Knowledge Technology: Media(ing) Multicultural Teaching Storytelling and Story Acting: Creating Spaces for Children to Negotiate Change Reflecting on the Possibilities of Teaching Multiculturally: What Next? What If? Mariana Souto-Manning is Associate Professor of Education in the Department of Curriculum and Teaching at Teachers College, Columbia University. "A profound, rich, and rewarding meditation and deep conversation with teachers fully engaging young children with culture, social history, and learning for the future. This wide-ranging book escapes temporal, spatial, and disciplinary boundaries. Read it and reflect on how you can take it into your own life of learning." —Shirley Brice Heath, Professor Emerita, Stanford University "Early childhood educators will experience this unique book as a warm and detailed invitation to engage in multicultural education. The emphasis throughout is on "multi"—multiple pedagogical approaches, from culture circles to podcasts to story acting, and multiple cultural heritages embodied by active children and teachers. From a critical perspective and alongside creative teachers who aspire to be transformative, Souto-Manning links accessible theory with rich and thoughtful practices." —Celia Genishi, Professor of Education, Teachers College, Columbia University "Mariana Souto-Manning's Multicultural Teaching in the Early Childhood Classroom rightly places the use of deficit thinking and ineffective teaching strategies in the wasteland of classroom instruction. The author superbly documents and explains ways of teaching multiculturally that will richly benefit the learning of all students and make teaching become the fun that teachers dreamed it would be when they first said, 'I want to teach because I love kids.'" —Carl A. Grant, Hoefs-Bascom Professor, University of Wisconsin-Madison "Multicultural Teaching in the Early Childhood Classroom encourages teachers to honor, affirm, and challenge even our very youngest children to think inclusively, critically, and democratically—a necessity if we are to help develop knowledgeable, caring, and empowered learners." —Sonia Nieto, Professor Emerita, University of Massachusetts, Amherst

teaching strategies for early childhood: Eager to Learn National Research Council, Commission on Behavioral and Social Sciences and Education, Committee on Early Childhood Pedagogy, 2001-01-22 Clearly babies come into the world remarkably receptive to its wonders. Their alertness to sights, sounds, and even abstract concepts makes them inquisitive explorers—and learners—every waking minute. Well before formal schooling begins, children's early experiences lay the foundations for their later social behavior, emotional regulation, and literacy. Yet, for a variety of reasons, far too little attention is given to the quality of these crucial years. Outmoded theories, outdated facts, and undersized budgets all play a part in the uneven quality of early childhood programs throughout our country. What will it take to provide better early education and care for our children between the ages of two and five? Eager to Learn explores this crucial question, synthesizing the newest research findings on how young children learn and the impact of early learning. Key discoveries in how young children learn are reviewed in language accessible to parents as well as educators: findings about the interplay of biology and environment, variations in learning among individuals and children from different social and economic groups, and the importance of health, safety, nutrition and interpersonal warmth to early learning. Perhaps most

significant, the book documents how very early in life learning really begins. Valuable conclusions and recommendations are presented in the areas of the teacher-child relationship, the organization and content of curriculum, meeting the needs of those children most at risk of school failure, teacher preparation, assessment of teaching and learning, and more. The book discusses: Evidence for competing theories, models, and approaches in the field and a hard look at some day-to-day practices and activities generally used in preschool. The role of the teacher, the importance of peer interactions, and other relationships in the child's life. Learning needs of minority children, children with disabilities, and other special groups. Approaches to assessing young children's learning for the purposes of policy decisions, diagnosis of educational difficulties, and instructional planning. Preparation and continuing development of teachers. Eager to Learn presents a comprehensive, coherent picture of early childhood learning, along with a clear path toward improving this important stage of life for all children.

teaching strategies for early childhood: Transforming Teaching Marie Masterson, 2021-03 Child-centered lesson planning provides a system to strengthen teaching. Great lesson planning helps teachers to choose a range of strategies that match what children are learning and doing--from directed mini-lessons to facilitated group activities.

teaching strategies for early childhood: Instructional Strategies in General Education and Putting the Individuals With Disabilities Act (IDEA) Into Practice Epler, Pam L., 2017-11-30 Diverse learners with particular needs require a specialized curriculum that will help them develop socially and intellectually. As educational technologies and theoretical approaches to learning continue to advance, so do the opportunities for exceptional children. Instructional Strategies in General Education and Putting the Individuals with Disabilities Act (IDEA) into Practice is a pivotal reference source for the latest teaching strategies for educators with special needs students. Featuring extensive coverage on relevant areas such as instructional adaptations, locomotor apparatus diseases, and intellectual disabilities, this publication is an ideal resource for school administrators, general and special education classroom teachers, and graduate-level students seeking current research on instructional strategies for educating students with disabilities.

teaching strategies for early childhood: Successful Inclusion Strategies for Early Childhood Teachers Cynthia Simpson, Laverne Warner, 2021-09-23 With increasing emphasis on inclusive classrooms, primary and elementary school teachers can use the information included in Successful Inclusion Strategies for Early Childhood Teachers to build a supportive, caring, learner-driven environment that takes into account the needs of all students. Covering topics from incorporating the needs of students with a variety of special needs to working one-on-one with students to modify classroom experiences, this book offers field-tested strategies for teachers in a concise, friendly format. The authors also provide an overview of how special education law affects inclusive classrooms. The book provides multiple vignettes describing special needs most often found in inclusive classrooms, including autism, ADHD, visual and hearing impairments, and developmental delays, as well as suggested tools and strategies for working with these students. A special section on adapting classroom materials provides teachers with guidance for modifying and differentiating their curriculum to encourage learning in children with special needs. This book is a valuable resource for early childhood teachers, administrators, and childcare directors.

teaching strategies for early childhood: The Creative Curriculum for Infants, Toddlers & Twos Diane Trister Dodge, Sherrie Rudick, Kai-leé Berke, Amy Laura Dombro, 2006 Helps teachers appreciate and find joy in the everyday discoveries that delight a child, and helps them to thoughtfully observe and use what they learn, to respond to children's interests and needs.

teaching strategies for early childhood: Funds of Knowledge Norma Gonzalez, Luis C. Moll, Cathy Amanti, 2006-04-21 The concept of funds of knowledge is based on a simple premise: people are competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing

a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the communities in which they work. In a time when national educational discourses focus on system reform and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents how to do school although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical characteristics. Funds of Knowledge: Theorizing Practices in Households, Communities, and Classrooms is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education.

teaching strategies for early childhood: Teaching STEM in the Preschool Classroom

Alissa A. Lange, Kimberly Brenneman, Hagit Mano, 2019 This book is designed to build educators' confidence and competence so they can bring STEM to life with young children. The authors encourage pre-K teachers to discover the value of engaging preschoolers in scientific inquiry, technological explorations, engineering challenges, and math experiences based on learning trajectories. They explain the big ideas in STEM, emphasizing teaching strategies that support these activities (such as language-rich STEM interactions), and describe ways to integrate concepts across disciplines. The text features research-based resources, examples of field-tested activities, and highlights from the classroom. Drawing from a professional development model that was developed with funding from the National Science Foundation, this book is an essential resource for anyone who wants to support preschool children to be STEM thinkers and doers. "I have read a lot of really good early childhood science education books over the years, and as far as I am concerned, this is the best one yet." —From the Foreword by Betty Zan, University of Northern Iowa "This excellent book shows that the important ideas of STEM are within every teacher's and child's grasp." —Douglas Clements, University of Denver "Teaches STEM content while sharing strategies for robust and developmentally appropriate instructional practice. This book is the real deal!" —Beth Graue, University of Wisconsin-Madison

teaching strategies for early childhood: Applied Behavior Analysis in Early Childhood Education Laura Baylot Casey, Stacy L. Carter, 2016-02-05 Applied Behavior Analysis in Early Childhood Education provides a basic introduction to applied behavior analysis and the highly beneficial role that it can play in early childhood education for both typically developing children and those with special needs. The objective is to provide future and current early childhood professionals

with the tools that they need to positively impact the lives of young children. Specifically, the book will describe and provide useful examples related to the following: Implementing effective techniques for changing behavior; Strategies for every day challenges both in the classroom and at home; Strategies for addressing less frequent issues; Suggestions for how to consult and correspond with parents and caretakers. *Applied Behavior Analysis in Early Childhood Education* is written for professionals preparing for—or those already in—careers in child development, behavior analysis, early childhood education, developmental therapy, counseling, special education, and other helping professions. A Companion Website featuring additional information and resources for students and instructors can be accessed at www.routledge.com/cw/casey.

teaching strategies for early childhood: Transforming the Workforce for Children Birth Through Age 8 National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success, 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

teaching strategies for early childhood: Tools of the Mind Elena Bodrova, Deborah Leong, 2024-04-24 Now in its third edition, this classic text remains the seminal resource for in-depth information about major concepts and principles of the cultural-historical theory developed by Lev Vygotsky, his students, and colleagues, as well as three generations of neo-Vygotskian scholars in Russia and the West. Featuring two new chapters on brain development and scaffolding in the zone of proximal development, as well as additional content on technology, dual language learners, and students with disabilities, this new edition provides the latest research evidence supporting the basics of the cultural-historical approach alongside Vygotskian-based practical implications. With concrete explanations and strategies on how to scaffold young children's learning and development, this book is essential reading for students of early childhood theory and development.

teaching strategies for early childhood: Tap, Click, Read Lisa Guernsey, Michael H. Levine, 2015-08-14 A guide to promoting literacy in the digital age With young children gaining access to a dizzying array of games, videos, and other digital media, will they ever learn to read? The answer is yes—if they are surrounded by adults who know how to help and if they are introduced to media designed to promote literacy, instead of undermining it. Tap, Click, Read gives educators and parents the tools and information they need to help children grow into strong, passionate readers who are skilled at using media and technology of all kinds—print, digital, and everything in between. In Tap, Click, Read authors Lisa Guernsey and Michael H. Levine envision a future that is human-centered first and tech-assisted second. They document how educators and parents can lead a new path to a place they call 'Readialand'—a literacy-rich world that marries reading and digital media to bring knowledge, skills, and critical thinking to all of our children. This approach is driven by the urgent need for low-income children and parents to have access to the same 21st-century literacy opportunities already at the fingertips of today's affluent families. With stories from homes, classrooms and cutting edge tech labs, plus accessible translation of new research and compelling videos, Guernsey and Levine help educators, parents, and America's leaders tackle the questions that arise as digital media plays a larger and larger role in children's lives, starting in their very first years of life. Tap, Click, Read includes an analysis of the exploding app marketplace and provides useful information on new review sites and valuable curation tools. It shows what to avoid and what to demand in today's apps and e-books—as well as what to seek in community preschools, elementary schools and libraries. Peppered with the latest research from fields as diverse as neuroscience and behavioral economics and richly documented examples of best practices from schools and early childhood programs around the country, Tap, Click, Read will show you how to: Promote the adult-child interactions that help kids grow into strong readers Learn how to use digital media to build a foundation for reading and success Discover new tools that open up avenues for creativity, critical thinking, and knowledge-building that today's children need The book's accompanying website keeps you updated on new research and provides vital resources to help parents, schools and community organizations.

teaching strategies for early childhood: Literacy Cate Heroman, Candy Jones, 2004 Literacy: The Creative Curriculum® Approach shows teachers how to create literacy learning opportunities within the framework of a comprehensive, integrated curriculum. This book provides a review of the most up-to-date research about literacy development and thoroughly describes the seven components of literacy in detail: literacy as a source of enjoyment, vocabulary and language, phonological awareness, knowledge of print, letters and words, comprehension, and books and other texts.

teaching strategies for early childhood: Coaching with ECERS Holly Seplocha, 2018-11-16 ECERS is widely used in the United States and internationally to assess the overall quality of preschool and kindergarten classrooms and to provide a framework for continuous quality improvement. This new book in the ERS® Family presents best practices to help coaches build trusting relationships with teachers, program directors, and administrators that will improve classroom environments and teaching practices. By using ECERS-3 and ECERS-R as a coaching tool, Holly Seplocha shows coaches and teachers how to work together to implement what is best for children. Each ECERS subscale chapter offers suggestions for quick and easy solutions, as well as strategies for classroom change that generally take more time for teachers to understand and incorporate into daily practice. This resource also includes guidance and activities for facilitating group meetings, professional learning communities, and staff workshops. Coaching with ECERS will

help refine classroom practices and environments so that scores will rise, not just for the day, but for every day. Book Features: Outlines the nuts and bolts of coaching with ECERS in a way that has meaning and impacts classroom practice. Provides an overview of adult learning and coaching strategies, incorporating techniques for coaching novice and experienced teachers, as well as administrators. Examines the diversity of roles, from peer coaching to coaching from the inside or outside of the program, to administrators and supervisors who coach within their role. Presents the case for building onsite program capacity for coaches who target their efforts with administrators. Offers hands-on advice, strategies, and tools including "ECERS Tips" and No, No, Never, Nevers, as well as helpful resources to support coaches and administrators.

teaching strategies for early childhood: Teaching Young Children: Choices In Theory And Practice Mac Naughton, Glenda, Williams, Gillian, 2008-11-01 This book presents early childhood students and staff with a broad and diverse range of teaching techniques to support children's learning. It examines 26 techniques ranging from simple ones, such as describing and listening, to more complex methods, such as deconstruction and scaffolding. The strategies selected are derived from the best current research knowledge about how young children learn. A detailed evaluation of each strategy enables childcare staff, early childhood teachers and students to expand their repertoire of teaching strategies and to critically evaluate their own teaching in early childhood settings. Vignettes and examples show how early childhood staff use the techniques to support children's learning and help to bring the discussion of each technique to life. Revised and updated in light of the latest research, new features include: * Coverage of the phonics debate * Addition of ICT content * Questions for further discussion * Revision to the chapter on problem solving * Updated referencing throughout Teaching Young Children is key reading for students and experienced early childhood staff working in diverse settings with young children.

teaching strategies for early childhood: Boost Emotional Intelligence in Students

Maurice J. Elias, Steven E. Tobias, 2019-01-28 Develop emotional intelligence and strengthen social emotional skills in adolescents with this practical, hands-on resource. Helping students develop emotional intelligence (EQ) and social emotional skills is essential to preparing them for success in college, careers, and adult life. This practical resource for educators explains what emotional intelligence is and why it's important for all students. *Boost Emotional Intelligence in Students* lays out detailed yet flexible guidelines for teaching fundamental EQ and social emotional skills in an intentional and focused way. The book is split into three modules, which correspond to three main skill areas: Self-awareness and self-management Social awareness and relationship skills Responsible decision-making and problem-solving Each module features ten hands-on, research-based lessons, which are focused on a critical EQ concept and centered around productive and respectful discussion. All lessons are designed to take approximately 35 minutes each but can easily be adapted to meet the specific needs of a school or group as they work to develop emotional intelligence and social emotional skills in their students. Digital content includes reproducible forms to use with students.

teaching strategies for early childhood: Teaching Strategies James S. Etim, 2018-06 In the last thirty years, the educational system has become increasingly more diverse. In some school systems, the majority is now slowly moving towards being the minority within the next ten to fifteen years. Educators are confronted with several questions: How can instruction be more engaging and relevant to the needs of learners? What strategies can be employed to meet the needs of learners at different levels of the educational ladder, within the same level and in the same classroom and given the achievement gap how can educators ensure that all students learn without lowering the standards for high achieving students? This book in some ways explores these and more questions that are at the heart of teaching and learning. The contributors, who are all classroom teachers, educators or practitioners at varying levels of the education system, propose and discuss strategies that are effective in advancing student learning. After reviewing literature on research and effective teaching, the author of Chapter One pointed out that the ways to prepare effective teachers is still a

work in progress and that the broad areas of subject matter specialization, certification and experience are all still valid in the discussion of effective teachers. The book is divided into five sections: Theoretical Framework, Teaching English Language Arts, Teaching Science and Mathematics, Information Technology and Assessment. Each section provides readers with issues affecting instruction and effective strategies. This book is a useful resource for prospective and practicing teachers, especially those working in schools with diverse populations.
